

While every effort has been made to ensure that this documentation is accurate and reliable, NOAA cannot assume liability for any damages caused by inaccuracies in the NOAA polar orbiter data or documentation, or as a result of the failure of the data or software to function in a particular manner. The software (included in the appendices) was developed by the U.S. Government and is not intended for resale. The user should be aware that phone numbers, fax numbers, addresses, Internet browsers and Internet Uniform Resource Locators (URLs) are subject to change and cannot be expected to remain constant. NOAA makes no warranty, expressed or implied, nor does the fact of distribution constitute a warranty.

The NOAA Polar Orbiter Data User's Guide provides a significant source of information for the TIROS-N through the NOAA-14 satellites. As the data processing and storage technology has progressed over time, the machines used to process the data and the methods of archiving and retrieving satellite data and products have changed dramatically. The document has not been changed to reflect those changes

Questions concerning the retrieval of satellite data and products can still be directed to the National Climatic Data Center by telephone, mail, email or the NCDC home page. The mailing address for NCDC is:

National Climatic Data Center  
NOAA/NESDIS  
Veatch-Baily Federal Building  
151 Patton Ave, rm 120  
Asheville, NC 28801-5141

The telephone number is (828)271-4800.

The email address is **`ncdc.satorder@noaa.gov`**

The URL for the NCDC home page is [www.ncdc.noaa.gov](http://www.ncdc.noaa.gov).
